<https://www.linkedin.com/in/ashobencfs/>

Versatile and creative Full-Stack Web Developer with a rich background in customer service, automotive repair, and medical manufacturing. Equipped with hands-on experience in building RESTful APIs, database-driven applications, and responsive interfaces using JavaScript, Node.js, React, and SQL. Trained in scalable, production-ready development through CareerFoundry's Full-Stack Web Development Program. Dedicated to writing clean, maintainable code and contributing to collaborative teams that build real-world solutions.

## Skills

- **Technical & Soft Skills**
- **Languages & Tools:** JavaScript (ES6+), HTML5, CSS3, Git, GitHub
- **Frameworks & Libraries:** React, Node.js, Express.js
- **Databases:** MongoDB, MySQL
- **Technologies:** REST APIs, Postman, Responsive Design, Accessibility, Debugging, Hosting & Deployment
- **Soft Skills:** Problem-Solving, Time Management, Team Collaboration, Communication, Adaptability, Attention to Detail, Customer Service

## Projects

### Movie Selector API

*Role: Back-End Developer | 2024*

Developed a secure RESTful API using Node.js, Express, and MongoDB for managing a movie database and user profiles. Implemented JWT authentication and Passport.js to protect endpoints. Enabled CRUD operations for movies and users, supporting search by title, genre, and director. Configured CORS and environment settings for deployment readiness.

### Python Recipe App

*Role: Back-End Developer | 2024*

Created a command-line recipe manager using Python, SQLAlchemy, and MySQL. Integrated advanced features such as ingredient-based search, automatic difficulty scoring, input validation, and recipe serialization using `pickle`. Demonstrated robust understanding of database modeling and file handling in Python.
